

## Environmental, Safety and Health Policy

The Fermilab Computing Division is committed to protecting the welfare of our employees and the environment. Through continual improvement of our ES&H performance, and compliance to legal and regulatory requirements, our goal is to reduce ES&H impacts associated with our mission and the mission of the laboratory. We will achieve this goal by:

- Implementing practices to reduce risks and to prevent injury to our employees.
- Maintaining plans to minimize and respond to emergencies.
- Examining and guiding ES&H practices of our contactors.
- Managing and reducing consumption of natural resources and generation of waste through design, reuse and recycling.
- Measuring performance by monitoring and improving compliance with ES&H Policy's.
- Providing information regarding ES&H practices and policy through dialogue, training, and openness with employees.
